CAST IRON
TOYS
THAT SELL

They're Different

HUBLEY (Cast iron) Toys are well designed and made of the highest quality grey iron. They are as exact in detail as a toy can be made. The lacquers and enamels used in painting them are made for us and they are baked on to insure durability. The result is a handsome toy of unmistakable appeal and sales value. The Hubley Line includes many "exclusive right" toys which we only are privileged to make. Others are fully protected by patents, copyrights and patents pending. Only Hubley can sell you these exclusive toys; only through Hubley can you sell the profits they produce. It will mean better business for you to stock and sell Hubley Toys.

Manufactured by

THE HUBLEY MANUFACTURING CO.
LANCASTER, PA., U. S. A.

THERE ARE TWO WAYS TO IDENTIFY GENUINE HUBLEY TOYS

EACH Hubley Toy is prominently marked with our decalcomania which is illustrated here. Note the phrase "It's a Hubley Toy." This same mark appears on the attractive cartons in which our toys are packed. The public already is familiar with Hubley Toy quality and it is for your protection that we identify all toys. To have Hubley Toys prominently displayed identifies you as a progressive dealer.

EACH "EXCLUSIVE RIGHT" TOY HAS A SLOGAN TAG

To further identify Hubley Toys we have added slogan tags to all "exclusive right" and a few of the other toys. This tag is blue in color with white lettering on both sides and is cut out in seal shape. These tags attract attention and help you sell toys, as the slogan explains the dominant feature of the toy.

On the center spread of this catalogue you will see some of these feature toys illustrated in color. Their tags are also reproduced.

It will be to your advantage to display these tagged toys prominently. A view of the tag suggests a demonstration of the toy and will lead to a profitable sale.

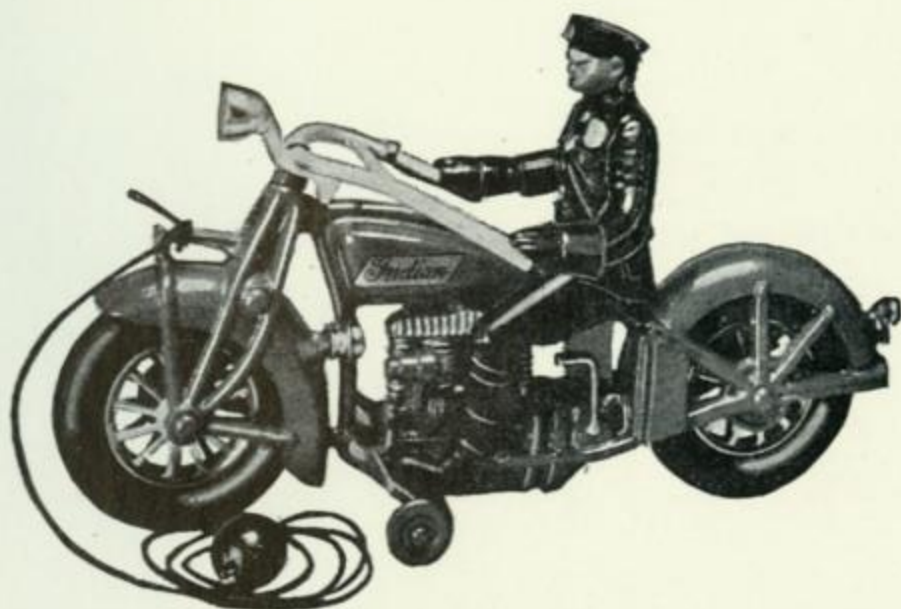

Hubley Toys will give your customers dollar for dollar value and you will discover that one sale leads to another because of their inbuilt quality and merit.

Hubley's Realistic Design and

THE HUBLEY TOY
AMERICA PLANE No. 8

THE Hubley "America" (No. 8) is "a Byrd of a toy" as it is a clever toy model of the famous Byrd plane. Its three spinning propellers and its trim lines require very little supplementary sales argument. The future of America is in the air and Hubley airplane toys will produce profits for you because they are realistic toy models of the airplanes that have made and are making air history. The "America" is fully described on page 7 of the new catalogue.

THE HUBLEY
TOY RACER No. 5

HUBLEY Racing Autos and Limousines have one very attractive feature which appeals to all children; the hood may be raised to reveal the miniature motor. The slogan tag shown at the right emphasizes this selling point, and you will find that children will want this toy and the other Hubley auto toys with movable hoods as soon as they find out about this realistic feature. The clicking noise which imitates the motor exhaust is another factor which produces profitable sales. HARLEY-DAVIDSON No. 11

THE Hubley Grasshopper (No. 9) is a droll fellow of very amusing character. The slogan tag (shown above) invites a demonstration of his abilities, and any child who discovers his lifelike movements and hears him chirp will adopt him at once.

This toy is painted in the color illustrated. Incidentally, it is one of the only two Hubley toys which are larger than the object from which they are copied. Look on page 38 of the new catalogue for specifications of this and the other Hubley "bug" toy. We prophesy a big and profitable future for these toys—"they're different."
